Turning Ideas Into Reality

Orion Product Development Ltd is a UK-based Technical Consultancy with a 100% successful track record in providing our customers with efficient and effective product realisation services exactly when and where they are required.

We are experienced in working with a wide range of product and business types, and offer our clients an unparalleled range of tailored services to help them develop, manufacture, and deliver high quality products that their customers will want to buy.

We have the qualifications and experience to provide you with a full range of New Product Development services using our proven customer focused methodology. We always challenge the “status quo” and consistently deliver innovative, commercially viable and solidly engineered design solutions.

We believe that developing clear objectives and a customer-focused project are key to successful delivery and here are a few examples of the techniques we employ:

- Six Sigma DMEDI Principles and design tools such as Failure Modes and Effects Analysis (FMEA) and Risk Assessments
- Top Down, Customer-focused design based on real Market Feedback
- Detailed, clearly defined roles and responsibilities within the project team
- Focused, efficient Project Management using “SMART” Objectives
- Research Legacy Projects, Best Practices, Regulations and Standards
- Hands-on and proactive Test and Commissioning plans (in-house and in-field)

Design and Product Development Expertise

We can help with any aspect of a product at any stage of its life cycle. We operate a tailored approach based around World-class Six Sigma Design Principles to help our clients to succeed.

A Single Solution

The only solution you'll need for:

- Value-Adding, Personalised Technical Consulting
- Professional, Ethical, Honest & Reliable Service
- Design and Product Development Expertise
- Hassle-Free Integration with Rapid Results
